

# HG-2000K Heat Gun Kit

JAPAN Professional Power tools

## Application

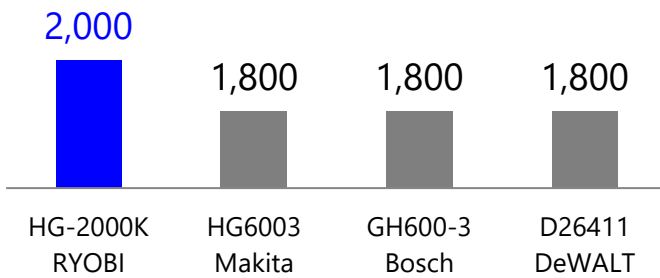

---

Heating wallpaper and pipe

# Advantages

Comparison of power (W)

**2000W** powerful motor

Many customers chose this model for higher wattage.

## Complete set accessories for heat working

Plastic case, scraper, chisel, and 4 types of nozzles are included.

### Concentrator Nozzle

This nozzle directs a concentrated heat flow to the work piece. It is ideal for removing paint.

### Flat Nozzle

This nozzle directs a long narrow heat pattern to the work piece. It is ideal for removing paint or varnish from large flat surfaces.

### Glass Protection Nozzle

This nozzle deflects the heat away from glass or other fragile areas and back onto the work piece.

### Hook Nozzle

This nozzle disperses the heat flow evenly around the whole work piece. It is ideal for defrosting frozen pipes, soldering pipe work, bending plastics and heat-shrinking electrical parts.

### Shave Hook

The triangular shave hook is ideal for stripping paint from flat wooden surface and edges.

## Specification

Input	2,000 W
Air temperature	450 °C / 600 °C(2-mode)
Overall Dimensions	230 x 85 x 185 mm
Weight	0.8kg

### Accessories

- Plastic carry case
- Scraper
- Chisel
- Glass protection nozzle
- Flat nozzle
- Hook nozzle
- Connection nozzle
